### REPORT

NSS Unit of Lords Institute of Engineering and Technology & Department of Science and Humanities of LIET collaboratively conducted a R.O (Reverse Osmosis) Water Purification System Campaign at Lords College and it was inaugurated on 09-01-2020 in association with Eureka Forbes by Honorable Chief Guest Secretary Mrs. Rizwana Begum along with Principal, Vice Principal, Dean of first year, HODs, Staff and Students.

RO water purifies the salt, lead and impurities present in the water and frees people from many diseases such as the high blood pressure, nerve damage etc. Drinking RO water not only enhances the healthy life but also eliminates the risk of brain damage and anemic especially among children.

On this Occasion, the dignitaries highlighted the importance of clean water especially 'safe drinking water' and advised the villagers to use clean and pure water for a healthy living. The benefits of drinking safe water were also explained to the audience. The mechanism of the water being purified though RO Reverse Osmosis was also elucidated to the audience.

The residents of hostel and students were also briefed about the importance of water and were appealed to refrain from wasting the water, as every drop of water is precious.
