VISION of Department

To emerge as a centre of excellence by imparting quality technical education through innovation, team work and value creation, and to contribute to advancement of knowledge in the field of Computer Science and Engineering.

MISSION of Department

1. Providing the students with in-depth understanding of fundamentals and practical training related to professional skills, problem solving skills and their applications through effective Teaching-Learning Process and state of the art laboratories pertaining to Computer Science Engineering and inter disciplinary areas.
2. Preparing students in developing research, design, entrepreneurial skills and employability capabilities.
3. Providing consultancy services and promoting Industry-Department Interactions.

Program Educational Objectives (PEOs):

PEO1: Shall have strong foundations in Basic Sciences, Mathematics, Computer Science and allied engineering.

PEO2 : Shall be capable of identifying, formulating, analyzing and creating engineering solutions using appropriate modern engineering techniques, designing skills, and tools to develop novel products solutions and simulations for the real life problems in Computer Science and Engineering.

PEO3 : Shall have successful and productive engineering careers, with emphasis on technical competency and managerial skills so that they are really accepted by the industry with minimal orientations.

PEO4 : Shall have professional, lifelong learning skills, ethics, research skills and leadership for independent working or team spirit to work cohesively within a group.

FROM   PRINCIPAL DESK

The current scenario in the local, national and international level is of intense competition with equal opportunity to all. The world has grown phenomenally in the past decade than ever before. Education which has always played an important role in the life of man has gained a lot of importance. In the present times it is not only, 'what you have' but 'how much you know' determines your success.

Training and placement department of our college helps students in making them aware about the various job opportunities in their respective fields with the aid in applying for the jobs and conducts campus interviews to recruit them when they are in final year of their graduation.

Our aim is to impart the best of the knowledge and technical know how to our students with required inputs, and the desire and ability to learn, lead and excel to make them responsible and respected citizens of India. We will be pleased if we receive any suggestion regarding our improvement.

Dr. Mohammed Yousuf Ali
Principal of LIET

FROM HOD DESK

It's immense pleasure to present this semi-annual newsletter "C Script". Computer Science and Engineering department is the dynamic and vibrant department with the blend of young and experienced Faculty.

Department is actively involved in academic as well as research work in current areas of Computer Science and Engineering and multi-disciplinary streams. The department has well equipped labs with the state of art software, hardware and machineries.

The faculty members are constantly publishing technical papers in national and international journals and conferences. Also, they are involved in consultancy activities. The department is fortunate to have dedicated teachers, devoted students, and committed supporting staff and expert technical staff.

Specially, I congratulate my students to participate various extra-curricular activities, research work and competitive exams. My best wishes to all for their bright carrier and successful life.
