

JOB DESCRIPTION

BUSINESS ANALYST

Job Title: Business Analyst

Department: BE-Any Stream , BTECH, MSC-CS/IT, MCA, MBA

Location: Chennai, India(WFH)

Business Analyst - Batch of 2023-2024

As a Business Analyst at Zynofus Technologies Private Limited, you will be responsible for bridging the gap between business needs and technical solutions. You will work closely with stakeholders from different departments to understand, analyze, and document their requirements, processes, and systems. You will play a crucial role in translating business needs into actionable plans for the development, enhancement, and implementation of software solutions.

Responsibilities:

- Gather and document business requirements from stakeholders through interviews, workshops, and analysis of existing systems.
- Analyze and evaluate the current business processes to identify areas for improvement and optimization.
- Collaborate with cross-functional teams to define project scope, objectives, and deliverables.
- Develop detailed and comprehensive business and functional specifications.
- Work closely with software developers, quality assurance teams, and project managers to ensure accurate and timely implementation of solutions.
- Conduct feasibility studies and cost-benefit analysis for proposed projects and initiatives.
- Perform data analysis and create reports to support data-driven decision-making.
- Identify and communicate potential risks and issues related to the projects and propose appropriate mitigation strategies.
- Provide end-user training and support during and after system deployments.
- Monitor and assess the performance of implemented solutions, identifying areas for continuous improvement.

Qualifications and Requirements:

- Bachelor's or Master's degree in Business Administration, Computer Science, Information Technology, or related fields.
- Strong analytical and problem-solving skills with a keen attention to detail.
- Excellent communication and interpersonal skills to effectively collaborate with stakeholders at all levels.
- Proficiency in tools such as Microsoft Office, Visio, and project management software.
- Familiarity with business analysis methodologies, such as Agile, Scrum, or Waterfall.
- Knowledge of data analysis techniques and tools is an advantage.
- Previous experience in a similar role or relevant internships will be considered a plus.

Compensation and Benefits:

Annual Package: Rs. 3.0 lakhs per annum

- Competitive salary and benefits package
- Opportunity to work on cutting-edge projects
- Collaborative and supportive work environment
- Opportunities for professional development

Working Conditions	Details
Work hours	The typical work hours for Software Engineers at Zynofus Technologies Private Limited are 9:00 AM to 6:00 PM, Monday through Friday. However, there may be some flexibility in the hours, depending on the project.
Work environment	The work environment at Zynofus Technologies Private Limited is completely work from home . Engineers are encouraged to work together to solve problems and share ideas, but they can do so from the comfort of their own homes.
