# MAD Club - Introduction

## INTRODUCTION

Welcome to the inaugural edition of the AppFussion 2.0 magazine!

Organized by the Mobile Application Development Club, AppFussion 2.0 in collaboration with Code Wave Hub(CWH) Club more than just a competition on 1<sup>st</sup> November 2025 at Lords Institute of Engineering and Technology; it is a crucible where creativity meets code. In an era where mobile technology defines our daily lives, our MAD club sought to provide a platform for student developers to transition from being consumers of technology to creators of innovation.

## VISION:

**“To create a community of tech enthusiasts who build impactful solution for society.”**

# Principal's Message

"It gives me immense pride to witness the vibrant energy brought forth by the Mobile Application Development (MAD) Club and Code Wave Hub (CWH) through AppFussion 2.0.

Events like these are the heartbeat of a progressive technical institution. They bridge the gap between classroom theory and industry practice, fostering a culture of innovation, teamwork, and resilience. I am particularly impressed by the dedication of the faculty and the student coordinators who have worked tirelessly to create this platform.

To the participants: whether your app won an award or stayed in the prototype stage, the logic you built and the bugs you squashed have made you better engineers today than you were yesterday. May this magazine serve as a testament to your creativity and a reminder that the future is literally at your fingertips.

Congratulations to the entire AppFussion team for a stellar event!"

**Dr. Ravi Kishore Singh**  
**Principal, Lords Institute of Engineering and Technology**

# Pre-hackathon workshop

Before AppFussion, a hands-on GitHub workshop was conducted on 23rd October 2025 by Ms. Rayeesa Mahmood. Students learned version control, collaboration, and repository management.

Over 80 participants actively practiced, gaining real-time experience. The session helped them move from coding individually to building projects as teams.

**“This workshop turned us into real developers before the hackathon.”**

# Sponsors

AppFussion 2.0 was proudly supported by organizations that believe in innovation and student growth. Swayam Overseas, our Title Sponsor, guided students towards global opportunities and higher education pathways. Origin Software, our Gold Sponsor, brought in industry-level insights and real-world exposure.

With the support of Major League Hacking (MLH), the event was connected to a global community of developers and innovators. Their contribution ensured that students experienced a hackathon environment aligned with international standards.

**Your support empowered 80+ students to turn their ideas into reality.**

# AppFusion-Registration

The registration phase marked the beginning of AppFusion 2.0 with great enthusiasm. Students formed teams, shared ideas, and prepared for the challenge ahead. It was the first step where creativity and collaboration came together.

“From ideas to execution — it all started here.”

# AppFusion-Opening Ceremony

The opening ceremony set an inspiring tone for the event. Faculty and organizers encouraged students to innovate and think beyond limits.

It highlighted teamwork, learning, and the importance of practical experience.

**“A platform to create, learn, and grow.”**

# AppFusion-Development Venue

The venue turned into a lively coding space filled with ideas and teamwork. Participants brainstormed, coded, and solved challenges together.

The atmosphere reflected focus, creativity, and determination.

“Where ideas became reality.”

# AppFusion-Mentoring

Mentors guided participants throughout the event, helping them solve problems and improve their projects. Their support added clarity and confidence.

With expert guidance, students turned challenges into learning experiences.

“Guidance that shaped innovation.”

# AppFusion-Judging

The judging phase brought excitement as teams presented their ideas and working models. Judges evaluated projects based on innovation, functionality, and real-world impact.

It was a moment of both nervousness and pride for participants.

**“Where ideas were tested and recognized.”**

# AppFusion-Closing Ceremony

The event concluded with a memorable closing ceremony celebrating effort, learning, and innovation.

Speeches, acknowledgments, and reflections marked the end of an inspiring journey for all participants.

**“An end to the event, but a beginning for new ideas.”**

# AppFusion-Winners

**First Prize– Cash Prize: ₹10,000,  
Team Cache-e-Kebab, LIET**

**Second Prize– Cash Prize: ₹7,000,  
Team SheCodes, LIET**

**Third Prize – Cash Prize: ₹5,000,  
Team PORTS, VJIT**

The winners of AppFusion 2.0 stood out with their creativity, technical skills, and problem-solving approach.

Their projects reflected dedication, teamwork, and innovation.

**“Celebrating excellence and achievement.”**

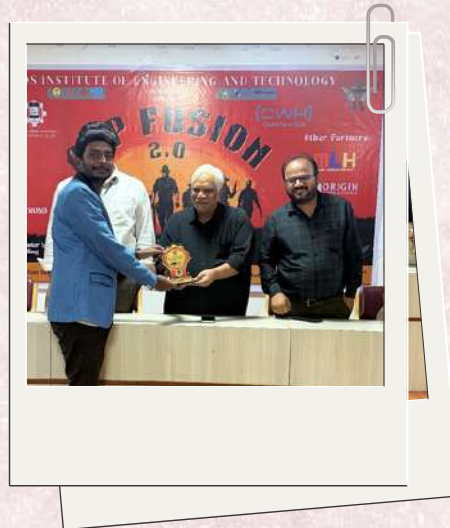

# Special Thanks To Judges

We extend our sincere gratitude to the judges for their time, expertise, and valuable feedback.

Their insights helped participants refine their ideas and improve their solutions.

**“Guiding minds that shaped innovation.”**

# Appreciate Organisers

Behind the success of AppFusion 2.0 was a dedicated team of organizers and volunteers. Their efforts ensured smooth execution and a great experience for everyone involved.

**“The backbone of the event’s success.”**

# Participation Feedback

Participants shared positive feedback, highlighting learning, teamwork, and overall experience.

**“An experience that motivated and empowered.”**
